# SCAM ALERT!

In today's times social media phishing cases are quite common. Although you can ignore most spam emails, some emails can quickly grab your attention and cause you to get angry and do things you shouldn't

# HERE'S HOW TO RECTIFY A SCAM

## Step 1

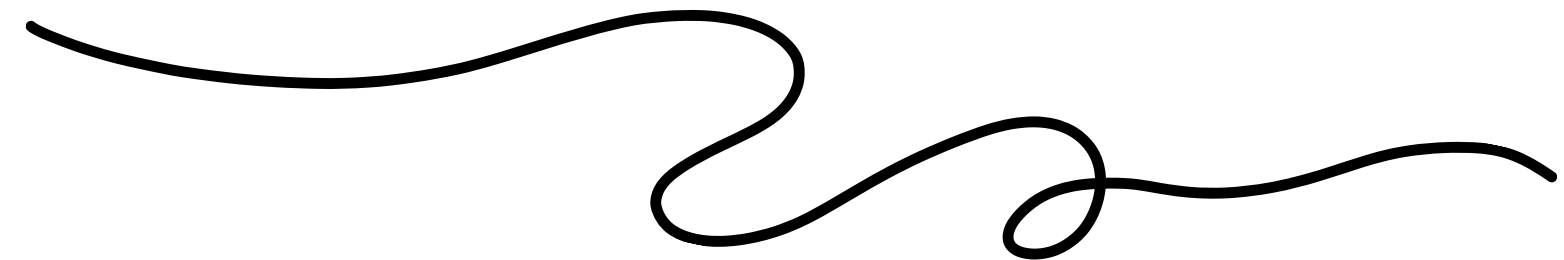

Check if there are typos in the email or small details such as language, message or greeting in the mail. Check if it is professional or not.

## Step 2

The next thing you need to know is who is sending the message. If it's not from Facebook.com but it's from a different name, that means the sender isn't from the same source.

## Step 3

Pay attention to the link in the email. If incorrect, the link will take you to a web page with a different name.

## Step 4

Always check the top URL links for fake names or fake web pages. You should go to Facebook.com and not any other URL link.

## Step 5

Through the link, you will be directed toward your login page details where you will be asked to enter your login ID and password.

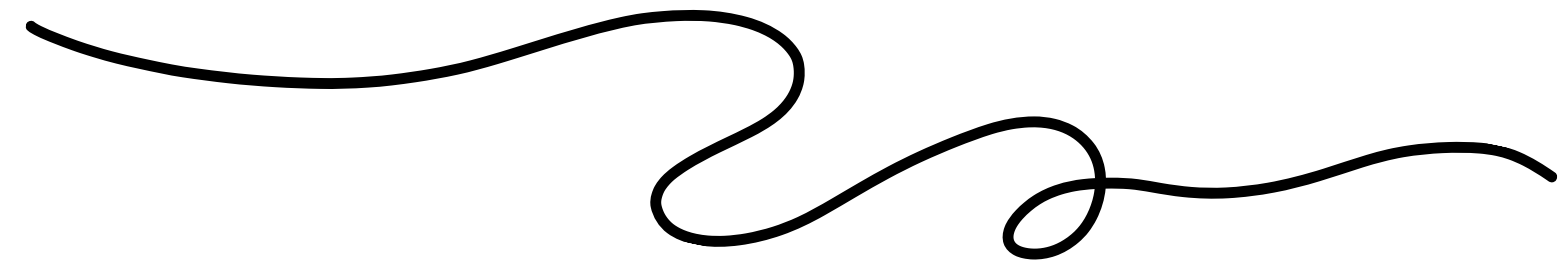

## Step 6

Before entering your details, check if they are from the original Facebook page. Because if you put your details on a fake page, a hacker will control your Facebook page

# **BUT WHAT IF YOU HAVE ALREADY FALLEN FOR THIS SCAM? TAKE THE FOLLOWING ACTIONS UNDER YOUR CONTROL**

First of all, you need to change the password, it should be a strong one and don't forget to include number in your password. Secondly one needs to use two step verification process
